

More speed, reliability, and convenience.

Platinum

Platinum is the recommended edition of Tabs3 billing and practice management software. Platinum provides mobile access, data security, scheduled backups, faster reports and lists, and administrative tools to help your firm collaborate.

Reliable Software. Trusted Service.

Tabs3 billing, financial, and practice management software is an integrated suite of products using the same design and terminology. That makes it easy to use, and easy for back office staff to support their attorneys. Our consultants, located across the country, are ready to customize and set up your software, train your staff, and support your firm.

Contact Resource Advisors to schedule a one-on-one walkthrough.

Contact Resource Advisors for special discounts and free services that may be available when you purchase through us. Terms and conditions apply.

Platinum is the highest level of Tabs3. Ask your consultant about installing Platinum for your firm.

Tabs3 Connect allows you to use your phone, tablet, and laptop to enter time, update your firm's calendar, view documents, and more.

"Being virtually logged in to your practice management software from anywhere, with no loss of functionality, is a dream come true for the mobile lawyer."

Rob Foos

Lewis Wagner LLP

ENTER YOUR TIME AND FEES ON THE GO

Tabs3 Connect provides access to Tabs3 and PracticeMaster when you are away from the office. Access the matter manager, clients, contacts, calendar, fees, and costs from your phone, tablet, laptop, or home computer.

PROTECT YOUR DATA FROM NETWORK FAILURES

Protect your data from damage caused by power outages or lost network connections. Auto-Recovery can automatically restore your data back to a reliable, usable state, reducing the risk of data corruption.

FASTER REPORTS AND LISTS

Platinum Accelerators speed up reports, filtering, and column sorting. Most firms typically see reports and large data sets processed 10 to 30 times faster.

EXCHANGE INTEGRATION

Sync PracticeMaster calendars and contacts with Outlook via Microsoft Exchange. It's always on, allowing appointments and contacts to sync even when your computer is off.

BACK UP YOUR DATA WHILE PEOPLE WORK

Back up your data even when people are working with HotBackup. Start a backup immediately or schedule them in advance to occur throughout the day. You control how many backups are stored on your server.

COLLABORATE WITH INTERNAL MESSAGES

Streamline communication between users and quickly link calendar and journal records, client files, and documents with instant pop-up messages.

LOG OFF USERS

Give users a chance to save their work and exit before they are logged off automatically. Use the Log Off User feature when it's time to do maintenance work.

PLATINUM SQL

Designed for 64-bit servers, Platinum SQL offers faster data queries in external programs such as Microsoft Access and Excel in addition to all other Platinum features. A Microsoft SQL Server software license is not required to use Platinum SQL.
